FY 2003

Progress Report for Automotive Lightweighting Materials

Energy Efficiency and Renewable Energy
Office of Freedom Car and Vehicle Technologies
Advanced Materials Technologies

Edward Wall
Rogelio Sullivan
Joseph Carpenter

Program Manager, OFC VT
Materials Technologies Team Leader
Technology Area Development Manager

April 2004

This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.

CONTENTS

1. INTRODUCTION	1
2. AUTOMOTIVE ALUMINUM R&D	7
A. Active Flexible Binder Control System for Robust Stamping.....	7
B. Warm Forming of Aluminum—Phase 2	17
C. Electromagnetic Forming of Aluminum Sheet.....	27
D. Aluminum Automotive Closure Panel Corrosion Test Program.....	35
E. Development of the Infrared Thermal Forming Process for Production of Aluminum Vehicle Components.....	41
3. ADVANCED MATERIALS DEVELOPMENT.....	49
A. Low-Cost Powder Metallurgy for Particle-Reinforced Titanium Automotive Components	49
B. Low-Cost Cast Aluminum Metal Matrix Composites	51
C. Structural Cast Magnesium Development.....	57
D. Magnesium Powertrain Cast Components.....	65
E. Low-Cost Titanium Evaluation	75
F. Structural Reliability of Lightweight Glazing Alternatives	85
4. POLYMER COMPOSITES R&D	93
A. Development of Manufacturing Methods for Fiber Preforms.....	93
B. Composite-Intensive Body Structure Development for Focal Project 3	101
C. High-Volume Processing of Composites	107
D. Thermoplastic Composite Sheet Manufacturing: Study of Thermoplastic Powder-Impregnated Composite Manufacturing Technology	113
5. LOW-COST CARBON FIBER	121
A. Low-Cost Carbon Fibers from Renewable Resources.....	121
B. Low-Cost Carbon Fiber Development Program	131
C. Microwave-Assisted Manufacturing of Carbon Fibers.....	141
6. RECYCLING.....	149
A. Recycling of Polymer Matrix Composites	149
B. Recycling Assessments and Planning.....	155
7. ENABLING TECHNOLOGIES.....	159
A. Durability of Carbon-Fiber Composites.....	159
B. Low-Cost Test Methods for Advanced Automotive Composite Materials; Creep Compression Fixture.....	167

C. Intermediate-Rate Crush Response of Crash Energy Management Structures	173
D. Composite Crash Energy Management	181
E. Energy Absorption in Adhesively Bonded Composites.....	189
F. Long-Life Electrodes for Resistance Spot Welding of Aluminum Sheet Alloys and Coated High-Strength Steel Sheet.....	195
G. Plasma Arc Welding of Lightweight Materials	209
H. Performance Evaluation and Durability Prediction of Dissimilar Material Hybrid Joints.....	219
I. Joining of Dissimilar Metals for Automotive Applications: From Process to Performance	229
J. Application of Thread-Forming Fasteners in Net-Shaped Holes.....	243
K. Nondestructive Evaluation Tools for Evaluation of Laser-Welded Metals	251
L. Inspection of Spot Welds Using an Ultrasonic Phased Array	259
M. Technical Cost Modeling	269
N. Springback Compensation in Advanced Sheet Forming Materials.....	273
8. HIGH-STRENGTH STEELS.....	279
A. Modeling of High-Strain-Rate Deformation of Steel Structures.....	279
B. Enhanced Forming Limits	289
C. High-Strength Steel Stamping Project.....	295
D. High-Strength Steel Joining Technologies Project	299
E. Sheet Steel Fatigue Characterization.....	307
F. Strain Rate Characterization	311
G. Advanced High-Strength Steel Tailor-Welded Blank Project	319
H. Tribology.....	323
I. Lightweight Front Structures.....	329
Appendix A. ACRONYMS AND ABBREVIATIONS.....	335
